WEBINAR

Proper Management & Disposal of Unwanted Patient Medications

Wednesday, January 14, 2015

10:00 AM - 11:00 AM PST

Presented in partnership with:

***California Hospice Foundation
CSU Institute For Palliative Care
Coalition for Compassionate Care***

SPONSORED BY:

**Bay Area Pollution Prevention Group (BAPPG) and
Sacramento Regional County Sanitation District**

Patients often accumulate many medications. Do you know what happens if medication is flushed down a toilet? Do you know that there are public health and environmental impacts of improper disposal of medications? Proper pharmaceutical disposal is a challenge we need to tackle both to reduce misuse of pharmaceuticals and to protect our watersheds.

In this webinar, you will learn about the types of pharmaceuticals that are now found in water bodies throughout California and Nevada, and you'll discover the available pharmaceutical take-back programs. You will leave the webinar with the internet resources needed to locate convenient nearby disposal sites throughout California and Nevada.

This one hour webinar will give you the tools and information you need to take care of your clients and your environment. And best of all, it's free. Register today.

Targeted Audience

Anyone interested in proper medicine disposal.

Faculty

Stephanie Hughes, MS, Chemical and Environmental Engineering
Environmental Consultant

More Information

916-925-3770, info@calhospice.org, <http://calhospice.org>

Objectives

- Understand the environmental and social burdens of pharmaceutical waste;
- Recognize the complexity of pharmaceutical pollution;
- Distinguish between “upstream” and “downstream” solutions; and
- Gain resources to advocate for proper medication disposal with patients and their families.
